The AX-DSP-X gives installers full control to fine-tune each of the 10 channel outputs individually, controlled via Bluetooth® in the free smartphone app. The app makes tuning easy with a 31 band graphic EQ and up to 10ms time delay for each independent channel, in addition to two-way/three-way crossovers in-line with the EQ. Once tuning has been completed, installers can password protect their settings to prevent anyone else from adjusting and the information is stored for future recall. This DSP and interface in one offers an on-board digital amplifier turn-on capability and is a versatile and cost-effective solution for improving a sound system.

The AX-DSP-X works with all of the existing AX-DSP series T-harnesses and offers the same easy installation behind the radio.

**AX-DSP-X**

The AX-DSP-X gives installers full control to fine-tune each of the 10 channel outputs individually, controlled via Bluetooth® in the free smartphone app. The app makes tuning easy with a 31 band graphic EQ and up to 10ms time delay for each independent channel, in addition to two-way/three-way crossovers in-line with the EQ. Once tuning has been completed, installers can password protect their settings to prevent anyone else from adjusting and the information is stored for future recall. This DSP and interface in one offers an on-board digital amplifier turn-on capability and is a versatile and cost-effective solution for improving a sound system.

The AX-DSP-X works with all of the existing AX-DSP series T-harnesses and offers the same easy installation behind the radio.

- 2 video inputs - signal sensing triggered
- IP69K
- Includes most widely used windshield mount, if vehicle does not have universal footprint on windshield, use TE-M06 (sold separately)
- If using for an off road vehicle with a roll bar, please purchase TE-RBM from iBEAM

---

**MOUNTS**

**TE-RBM**

- Kit includes 3 rings: 1.5”, 1.75” and 2” for different diameter roll bars
- Unique L bracket provides a standard mirror base
- Compatible with most mirrors
- Durable powder coat finish for off-road applications
- 5mm and 6mm allen keys include in box
ROLL BAR MOUNT

- Multiple applications
- Powder coated with durable crinkle coated finish
- Comes with rubber inserts allowing the clamp to be held steadfast while protecting the mounting surface from marring and scratches
- Extreme durability, precision alignment and 360 degree custom adjustability
- Mounts most LED lightbars and cubes, with 6mm/8mm mounting bolts onto any part of your vehicle with, 1.1875”, 2” and 3” diameter tubes
- Made of special high-strength, billet aluminum that will never rust and will withstand the harshest weather conditions

SWITCHES AND PANELS

8 GANG SWITCH PANEL

HE-SWP8

This 8 gang switch panel system allows you to control 8 auxiliary LED lights or electrical devices. You can now customize your switch panel according to your needs with 50 switch stickers, blue LED lights for back lighting and multi-position installation (2 brackets for panel, 1 bracket for control box, 60 amp circuit breaker and 7-gauge tinned copper battery cables).

- 8 gang switch panel
- Control box with cover
- Selectable switch operation; or momentary
- 50 switch labels
- 60 amp resettable circuit breaker
- 6 extra fuses
- Power harness
- Battery cables
- 2 switch panel brackets
- 1 control box bracket
- Mounting hardware, screws zip tie included

SPECS

Input Voltage: 12V
Power Handling: 600W

### WIRELESS RELAY HARNESS

**HE-WRRK**
- 9-function RF remote
- No need to run wires into the vehicle
- Simple 2-wire connection
- Completely sealed control box can be mounted in engine compartment
- Use with any Heise lightbar, driving light or work light

### WIRING HARNESS & SWITCH KIT

**HE-DLWH1**
- Universal plug-n-play wiring harness with on/off rocker switch
- 12V DC relay
- 30A fuse
- With 2-pin DT connectors for 2 lamps
- With water-resistant fuse holder
- Set includes wiring harness & switch
- Easy installation
- Use with 2 Heise lights 150 watts each or less
