### WHY CHOOSE LITHIUM?

Long Life & Reliability

Higher Total System Capacity

Lightweight in Comparison

Superior Charge Efficiency

Wide Operating Temperature

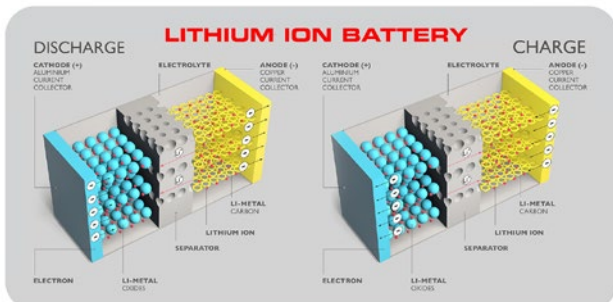

Long Shelf Life or Storage

### PRODUCT OVERVIEW

We've taken Shuriken batteries to a new level with our new Lithium series. These batteries weigh much less than other options while remaining long-lasting, reliable, and vibration-resistant. They will also be offered in a slim design that easily fits in confined spaces, such as behind interior panels. Their internal components are sectioned into independent cells that make them safer and prevent them from shorting out if damaged. Our lithium batteries have a built-in Battery Management System (BMS) that protects the battery from overcharging while consistently monitoring the cells in each battery. With more than a dozen different models, Shuriken has lithium batteries to fit numerous applications, including audio, motorcycle, marine, auto racing, powersports, and more.

- Lithium Ion
- 12.8 volts
- 105.6 watt-hours
- 10AH
- 550 cranking amps
- Voltage protection: 9V - 15.6V
- Built-in short circuit protection
- Extremely lightweight
- Long life of over 1500 cycles
- 90% recharge in less than 6 minutes)
- Dry cell battery - No lead or spill
- Longer shelf life than AGM batteries
- 6.61" L x 5" W x 6.96" H
- 3A charger included: 4.52" L x 1.88" W x 1.1" H
