HE-BL1 / HE-FMBL1 BLACKOUT SERIES DRIVING LIGHTS

 SALES 386-257-2956

PRODUCT OVERVIEW

Heise's Blackout Series driving lights are small but powerful for better coverage at night. These next-generation lights have refined frames and cleaner lines for a sleek yet minimalistic look. The upgraded optics have changed from a direct to an indirect placement allowing more control of the location and pattern of the beam. This allows the lights to be tailored to the vehicle, its entire lighting system, and for the driver's lighting coverage needs. Two IP67 rated options for driving lights feature a powerful 15° spot beam pattern and 6 LEDs, available in a standard or flush mount option.
