

HE-FDBK13

Triple fog light
bracket 2017 - Up
Ford Raptor

Parts included:

- (2) Fog light brackets
- (2) M8 x 20mm hex head bolts
- (2) M8 flanged hex nut

Bracket installation:

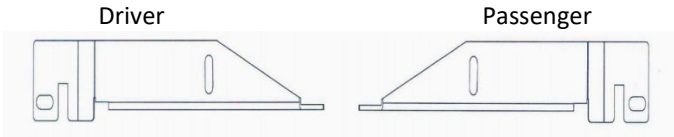

- 1) From behind the bumper remove the bolt and clip that attach the brace to the bumper. This bolt and clip **will not** be reused.

- 2) Remove bolt for the factory bracket. This bolt **will** be reused.

- 3) Identify the correct bracket for the side of the vehicle currently being worked on. Cube lights can be mounted onto the bracket at this point.

- 4) Position the new bracket in the opening and reinstall the factory bracket bolt that was removed in Step 2.

- 5) Reposition the brace from Step 1 on top of the new bracket, then secure both the brace and the bracket to the bumper using the supplied nut and bolt.

- 6) Adjust cube lights and tighten. Repeat for other side of vehicle.
