

LED Tail Light Replacement for JEEP WRANGLERS

HE-JWTLO2

(LED Tail Lights)

Applications: 2007-Current Jeep Wranglers

Tools Needed – Phillips Screwdriver

Instructions:

1. Remove the two inner screws (closest to the tailgate) from the factory taillights.
2. Remove the stock taillight from the vehicle.
3. Unplug the harness from the stock taillight.
4. Plug the harness into the new **HEISE** LED taillight.
5. Place the new taillight into the vehicle and replace previously removed screws to secure the taillight to the vehicle.
6. Repeat previous steps for the other taillight.
