

PRO SERIES HID to LED BULBS

"C" COLLAR

HID to LED CONVERSION

Introducing Heise's first HID to LED conversion bulbs. These five Pro Series bulbs cover every application of HID currently available on the market. Matched with a brand new extreme LED chipset, they not only outlast but will outperform HID bulbs. These bulbs are meticulously designed optimizing the LED position to maximize the headlight housing optics for both projector and reflector systems.

The "C" designation given to these bulb is in reference to the unique collar design that allows them to be properly keyed into projector "S" housings and reflector "R" housings.
