PRODUCT OVERVIEW

Heise LED bulbs are designed to replace weaker, factory bulbs with brighter, low current consuming LED solution. These bulbs are extremely bright, providing the additional light needed on dark nights. Each size has a pair of 25 watt LED bulbs. The voltage and current monitoring circuits are inside the compact radial heatsink housing and protected from the elements. Installation is easy, even in tight locations! Heise LED bulbs come in 21 different model sizes to fit an array of applications. 16 models include 3000K and 8000K films to change the light bulb color. 14 models now offer the ability to rotate the bulb to adjust the beam pattern for the vehicle. 16 models now offer an IP67 rating.

- 6000 lumens per set
- 25 watts per bulb
- 6500k
- Many headlights are IP67
- Ability to change light bulb colors on most models with included films

WARNING: THIS LIGHTING PRODUCT IS SOLD FOR OFF-ROAD USE ONLY. This product should not be used on the road. Keep your original factory bulbs so that you can replace them for use on public roads. Keep the box that the new bulbs come in to store the bulbs and be sure to handle them with care when removing and re-installing.
