### PRODUCT OVERVIEW

This easy-to-install controller with Bluetooth® wireless connectivity puts audio controls at your fingertips. It allows users to control the volume independently for three zones or simultaneously on the primary setting. An LED backlight on the remote indicates which zone is active. The controller is equipped with built-in Bluetooth® wireless technology and auxiliary input. A high-quality internal digital signal processor produces lossless audio output to your sound system. The controller is rated IPX7, making it ideal for marine and powersports applications.

- Control volume +/-, track FWD/PREV, PLAY/PAUSE, and auxiliary input
- Control the volume of 3 zones independently
- LED backlit controller that displays a different color for each zone
- Equipped with QCC3034 Bluetooth® 5.1 chips
- Easily switch between wireless input and auxiliary input
- 24-bit lossless audio processor
- Rated IPX7 for powersports & marine applications
- Amplifier remote turn-on output
- (3) 5.2V 2-channel RCA outputs
- Wireless range: 35ft/11m
- 1-year warranty
