LEVEL CONTROLLER WITH VOLTMETER

SALES 386-257-2956

PRODUCT OVERVIEW

Prevent damage to your vehicle's audio equipment with this level controller with a built-in voltmeter. It combines a power switch, bass knob, and voltmeter, making it easy to adjust the bass level and consistently monitor amplifier voltage to avoid drops or spikes. This unit offers remote gain control, a rotary pushable ON/OFF switch, and a digital voltmeter display.

- Dash-mount amplifier level control for volume adjustment
- Adjust the bass level even while driving
- In-dash or under-dash mountable
- Simple installation
- Compatible with most head unit/amplifier combinations
- Rotary push turn ON/OFF switch for voltmeter (10V-15.9V)
- Blue LED display (high voltage/low voltage)
- 1-year warranty

Includes:

- Level controller with built-in voltmeter
- Wiring for connection to head unit and amplifier
