GM **Stop/Start Override Interface** 2016-Up

INTERFACE FEATURES

- Allows the override of the STOP/START engine feature
- Can be used with either a factory or aftermarket radio
- No programming required
- Simple 2-wire setup

INTRODUCTION

The AXSSO-GM2 is designed to disengage the STOP/START feature of the vehicle, and keep that feature disengaged even after the key has been cycled. Simple 2-wire installation (ground and power to the battery) is all that is required to install the interface in the vehicle. No programming required!

TABLE OF CONTENTS

INTERFACE COMPONENTS

- AXSSO-GM2 interface
- LD-GM1-SSO harness
- LD-GM2-SSO harness
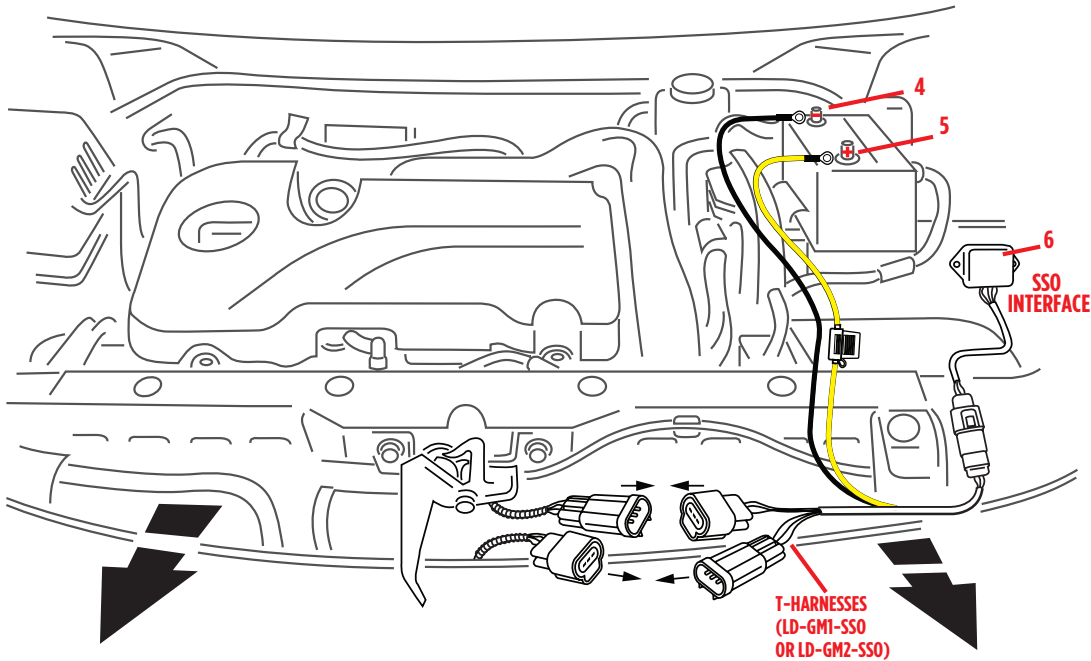

TOOLS & INSTALLATION ACCESSORIES REQUIRED

- Zip ties
- Zip tie cutter
- GM battery terminal wrench

Product Info

ATTENTION: With the key out of the ignition, disconnect the negative battery terminal before installing this product. Ensure that all installation connections, especially the air bag indicator lights, are plugged in before reconnecting the battery or cycling the ignition to test this product.
NOTE: Refer also to the instructions included with the aftermarket radio.

APPLICATIONS

LD-GM1-SSO applications

Buick		Cadillac		Chevrolet (Cont)		GMC	
Enclave	2018	CTS	2019	Traverse	2018	Acadia	2017-2018
Encore	2016-2018	XT5	2017-2018	Trax	2016-2018	Terrain	2018-2019
Envision	2016-2019	**Chevrolet**				Yukon	2018
LaCrosse	2017-2019	Cruze	2017-2018				
Regal	2017-2018	Equinox	2018-2019				
		Malibu	2016-2017				

LD-GM2-SSO applications

Buick		Cadillac (Cont)		Chevrolet (Cont)	
Enclave	2019	XT4	2019-Up	Silverado	2019-Up
Encore	2019	XT5	2019	Tahoe	2019-Up
Regal	2019	XTS	2019	Traverse	2019-Up
Cadillac		**Chevrolet**		Trax	2019-Up
CT6	2019-2020	Corvette	2019	**GMC**	
Escalade	2019-Up	Cruze	2019	Acadia	2019-Up

SSO INTERFACE

T-HARNESSES (LD-GM1-SSO OR LD-GM2-SSO)

(Figure shown for illustration purposes only. Actual vehicle and installation locations will differ)

1. Open the hood and locate the hood pin switch harness underneath the hood latch.

2. Unplug the hood pin switch harness, then plug in the appropriate harness.

3. Route the power and ground wires to the vehicles battery.

4. Connect the **Black** wire to the negative terminal.

5. Connect **Yellow** wire to the positive terminal.

6. Find a safe and secure spot for the water resistant **AXSSO-GM2 interface**, away from any heat sources and moving parts. With the wiring harness facing downward, zip tie the interface securely.

7. The installation is now complete.

   Note: There are 2 T-harnesses to choose from.

   Tech Tip! After install, if the check engine light appears, remove ground connection that was made to the battery and splice into the **Brown** wire on the vehicle side of the T-harness.
