### PRODUCT OVERVIEW

We've taken Shuriken batteries to a new level with our new Lithium series. These batteries weigh much less than other options while remaining long-lasting, reliable, and vibration-resistant. Their internal components are sectioned into independent cells that make them safer and prevent them from shorting out if damaged. Our lithium batteries have a built-in Battery Management System (BMS) that protects the battery from overcharging while consistently monitoring the cells in each battery. With more than a dozen different models, Shuriken has lithium batteries to fit numerous applications, including audio, motorcycle, marine, auto racing, powersports, and more.

- Lithium ION Battery Charger
- 14.6V @ 15A
- Positive and negative battery terminal clamps included
- Internal fuse protection

Long Life & Reliability

Higher Total System Capacity

Lightweight in Comparison

Superior Charge Efficiency

Wide Operating Temperature

Long Shelf Life or Storage
