PRODUCT OVERVIEW

Introducing our universal LED lightbar brackets, made for multiple applications. Each made from high carbon stamped steel and with a durable weather resistant black crinkle coat finish. These heavy-duty mounting brackets fit 8", 22", and 32" LED lightbars (not included). These custom designed mounting brackets allow for a direct and easy bolt-on installation of Heise LED light bars without any drilling, cutting or modification. Mount these brackets along with HE-DR8, HE-DRC22, and HESL32 (see HeiseLED.com) lightbars to give you adequate lighting. The different sizes allow you to install the LED lightbars in and on a variety of off-road applications, like ATV, UTV, dirt bikes, vehicle grilles/hoods, and more. A great way to add more lighting to your off-road vehicle so you can have tons of fun and still be safe.
