RGBW CONTROL BOX - 4 TRIGGERS

SALES 386-257-2956

PRODUCT OVERVIEW

The new control boxes can group multiple devices and handle up to ten amps of current, which allows for more lighting products than what most competing standard control boxes can handle. The mobile app also allows for multiple control boxes to be grouped together and installed within the same system. Unique to Heise control boxes is the ability for installers to put a positive voltage trigger to lights to offer four programmable triggers for any color. For example, yellow for a turn signal, red for the brake light, white for the reverse light and an additional option for the fourth trigger. This feature is exclusive to Metra and allows for even more customization of the RGBW lighting products.

- App controlled by Android™ / iOS® (METRA RGBW app)
- Wireless BLE control
- 16 million color options
- Group multiple devices
- Camera color capture
- Sync lighting to your music
- Rainbow, water, and fire patterns
- Fade, blink and pulsating transitions
- 4 programmable triggers
- Handles up to 10 amps of lights
