PRODUCT OVERVIEW

Our iBeam universal 3rd brake light camera offers an easy way to increase safety on any vehicle. Sleek waterproof design is a direct replacement for OEM factory brake lights, offering a perfect fit for any make or model. With a 170 degree viewing angle, live audio feed, and built-in LED night vision, this camera provides a clear representation of all activity directly behind the vehicle under any conditions. Defeatable parking lines allow drivers to maneuver their vehicle with confidence. Includes all necessary cables for installation - with a 4 pin DIN to RCA adapter as an added bonus.
