## TE-FLC FLUSH MOUNT BACKUP CAMERA WITH METAL HOUSING

 **SALES**  
386-257-2956

### PRODUCT OVERVIEW

Increase rearview visibility and avoid collisions with an unobtrusive 1/4-inch CMOS flush mount backup camera by iBeam. Our Flush Mount Backup Camera is a fast and easy solution to increasing driver safety. The universal flush mount is integrated into the body of the vehicle for an unobtrusive camera with only the lens visible. A wide-angle lens provides a 110-degree viewing angle and sharp picture from the 1/4-inch CMOS camera which has 0.5 lux night vision. This camera is AHD and CVBS compatible. The camera is inside a high-quality metal housing with water resistant construction.
